

Small/Mid Cap Equity Fund

OBJECTIVES AND PHILOSOPHY

The Small/Mid Cap Equity Fund seeks to *provide investors with maximum long-term capital appreciation*. In pursuing its goal, the Fund invests primarily in the common stock of small- and mid-capitalization companies traded in the U.S. The Adviser selects investments which are either included in the Russell 2000®, 2500™ or Midcap® Indices or have equity capitalizations within the ranges of these Indices at the time of purchase. Highly speculative or illiquid stocks are not candidates for the Fund. To control risk, extreme overweighting or underweighting of the Fund relative to the Russell 2500 Index is normally avoided. To thoroughly diversify, the Fund consists of 75 to 150 different stocks, each making up a relatively small portion of the Fund.

The Adviser employs a Growth at a Reasonable Price (GARP) investment philosophy in the management of the Fund. The GARP approach provides an opportunity to invest in companies with strong earnings growth selling at attractive valuations.

DISCLOSURES

Mutual fund investing involves risk. Principal loss is possible. Growth stocks typically are more volatile than value stocks; however, value stocks have a lower expected growth rate in earnings and sales. Small- and medium-capitalization companies tend to have limited liquidity and greater price volatility than large-capitalization companies. Investment in IPOs can be volatile and can fluctuate considerably. IPOs can have a magnified impact on funds with a small asset base. Investments in foreign securities involve greater volatility and political, economic and currency risks and differences in accounting methods.

The Russell 2500® Index is a subset of the Russell 3000® Index and includes approximately 2,500 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2500® Growth Index includes those Russell 2500 companies with higher price-to-book ratios and higher forecasted growth values. The Russell 2000® Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2000 of the smallest securities based on a combination of their market cap and current index membership. The Russell Midcap® Index is a subset of the Russell 1000® Index and includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. The Standard & Poor’s 500 Index (S&P 500®) is an American stock market index based on the market capitalizations of 500 large companies having common stock listed on the NYSE or NASDAQ. The S&P 500 index components and their weightings are determined by S&P Dow Jones Indices. Index vendor sources may vary, resulting in slight variations in the index returns that are displayed in performance reporting for the Rainier Funds. The Indices are not available for investment and do not incur charges or expenses.

Fund holdings and sector weightings are subject to change at any time due to ongoing portfolio management. References to specific investments should not be construed as a recommendation of the Fund or the Adviser to buy or sell securities and these investments do not represent all, and may represent a small percentage of, the Fund’s holdings. There is no assurance that the securities purchased remain strategy investments or that securities sold have not been repurchased. **Current and future Fund holdings are subject to risk.**

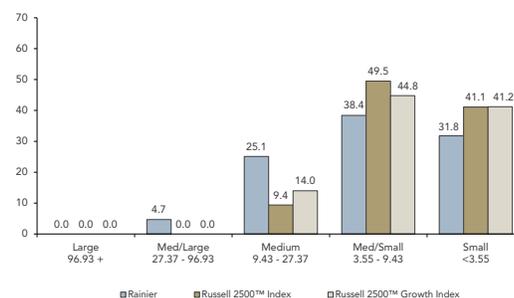

Although the Fund is no-load, management and distribution fees do apply.

Market capitalization is the total dollar market value of all company’s outstanding shares. The Price to Earnings (P/E) Ratio reflects the multiple of earnings at which a stock sells. Earnings per share (EPS) is total earnings divided by the number of shares outstanding. Growth at a Reasonable Price (GARP) is an equity investment strategy that seeks to combine tenets of both growth investing and value investing to find individual stocks. **Earnings growth is the annual rate of growth of earnings from investments.**
